About

- Bachelor of Science (Honors) in Computing with Software Development
- I am a passionate Software Developer with a foundation in Java, building efficient and scalable applications.
- Take on any obstacle on the way of reaching ambitions and goals by facing it with a positive attitude and an opportunity to grow and learn.

Skills

- **Languages:** Python | Java | JavaScript
- **Databases:** MySQL | MongoDB | PostgreSQL
- **Frameworks, Tools and Other:** Spring Boot | Node | Git | Jenkins | Postman

Projects

- **Project title (Final Year): MERN Booking System**

Summary ([GitHub](#))

- Developed Full-stack application built using MongoDB, Express.js, React, and Node.js (MERN Stack).
- Developed a RESTful API with Express.js to handle bookings, payments, and user management.
- Integrated MongoDB with Mongoose for efficient data storage and retrieval.
- Deployed using Netlify and Render.

- **Project title (3rd Year): Moodle System**

Summary ([GitHub](#))

- Designed and developed an online learning platform.
- Cooperated in a scrum in an iterative process and used a test-driven development approach throughout our work.

Experience

Software Engineer

Mastercard

Dublin 09/2023 – Current

- Develop and automate API calls for testing and validation.
- Work with RESTful APIs, handling request/response validation.
- Implement CI/CD pipelines in Jenkins to trigger automated API tests.
- Designed and developed a full-stack Node.js dashboard, enabling the QA team to track tasks and test scenarios during QA weeks.
- Actively troubleshoot and debug software issues using console and Splunk logs

Software Developer, Intern

OpenJaw

Dublin 02/2022 - 08/2022

- Designed and developed applications using the following technologies of XSLT (XSL & XML), JavaScript, and Java (JSP).
- Developed front-end web pages, and back-end RESTful APIs for travel providers.
- Continuous bug fixing using Jira dashboard. Assisted with number one priority bug in project.
- Developing test cases & testing bug fixes on QA team
- Continuous Integration/Deployment Pipeline Integration, pull requests and code reviews

Education

Bachelor of Science (Honors)

Technological University Dublin

Dublin

2019 - 2023

Interests & Achievements

- Member of FlyeFit gym and Arthur Griffith Football Club.
- Open-source contributions – I enjoy spending time helping others or learning from other projects
